

California 93561 submitted for filing an application for Commission recertification as a qualifying small power production facility pursuant to Section 292.207(b) of the Commission's Regulations. No determination has been made that the submittal constitutes a complete filing.

According to the applicant, the facility is a wind energy small power production facility located in the Tehachapi Mountains, Kern County, California. The Commission previously certified the facility as a qualifying facility in *Zond Systems, Inc.*, 41 FERC ¶ 62,079 (1987). The facility consists of 225 wind turbines with an aggregate capacity of 20 MW. Power from the facility is sold to Southern California Edison Company. According to the applicant, the instant recertification is requested to assure that the facility will remain a qualifying facility following a change in the ownership of the applicant.

Comment date: Fifteen days after the date of publication of this notice in the **Federal Register**, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraph

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[Project No. 1494-136]

Grand River Dam Authority; Notice of Availability of Draft Environmental Assessment

May 27, 1997.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR Part 380 (Order No. 486, 52 F.R. 47910), the Office of Hydropower Licensing (OHL) has reviewed an application for approval of new marina facilities. Grand River Dam Authority Proposes to permit Brian Miller and Dennis Blakemore, d/b/a Honey Creek Landing, Ltd., LLC, (HCL) to construct new marina docking facilities on the Honey Creek arm of Grand Lake, the project reservoir. HCL requests permission to construct 7 floating boat docks containing a total of 242-slips. The marina would be located on the north shore of the creek immediately west of U.S. Highway 59 in the Town of Grove. The Pensacola Project is on the Grand River, in Craig, Delaware, Mayes, and Ottawa Counties, Oklahoma.

The DEA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the DEA can be obtained by calling the Commission's Public Reference Room at (202) 208-1371. In the DEA, staff concludes that approval of the licensee's proposal would not constitute a major Federal action significantly affecting the quality of the human environment.

Please submit any comments within 30 days from the date of this notice. Any comments, conclusions, or recommendations that draw upon studies, reports, or other working papers of substance should be supported by appropriate documentation.

Comments should be addressed to: Ms. Lois D. Cashell, Secretary, Federal Energy Regulatory Commission, 888 First Street N.E., Washington, D.C. 20426. Please affix Project No. 1494-136 to all comments. For further information, please contact the project manager, John K. Hannula, at (202) 219-0116.

Lois D. Cashell,

Secretary.
